About Our Company

Our Company History

Treant General Contractors Ltd (TGCL) is a multi-faceted, efficient, progressive company that offers high quality products and general services inclusive to both domestic and commercial clients. The company was originally founded in 2007 but officially started operating in 2009.

Since its inception, TGCL has consistently grown through repeated referrals via our private sector clientele, which has propelled the company into the public sector. Within the past nineteen (19) years, our portfolio has increased and includes a range of government agencies, high profile private sector conglomerates and the petrochemical industry.

Vision

TGCL's vision is to be a leader within the industry by offering high quality products, efficient and reliable service at competitive prices, whilst incorporating our experience by providing Professional Workmanship High Quality Materials and Products and Effective Customer Service.

Mission

TGCL is a versatile company that offers an array of general services. Customers can rest assured of our commitment to complete all projects whether large or small. Our mission is to:

01

To provide reliable general service that ensures clients receive value for money and complete projects within specified timelines.

02

Maintain industry standards to promote health and safety, employee morale, community spirit, honesty and integrity

03

Maintain the respect and trust of our clients by providing competitive pricing and quality products with guaranteed professional customer service.

04

Develop long term relationships with clients, vendors, suppliers, and sub-contractors.
TGCL employs experienced, qualified, and skilled staff, all of whom are the most

OUR TEAM

Treant General Contractors Limited (TGCL) is led by its founding members and supported by an experienced management team with extensive industry knowledge. Our team consists of dedicated and skilled professionals who are committed to delivering high-quality services and maintaining our reputation as a trusted contracting service provider.

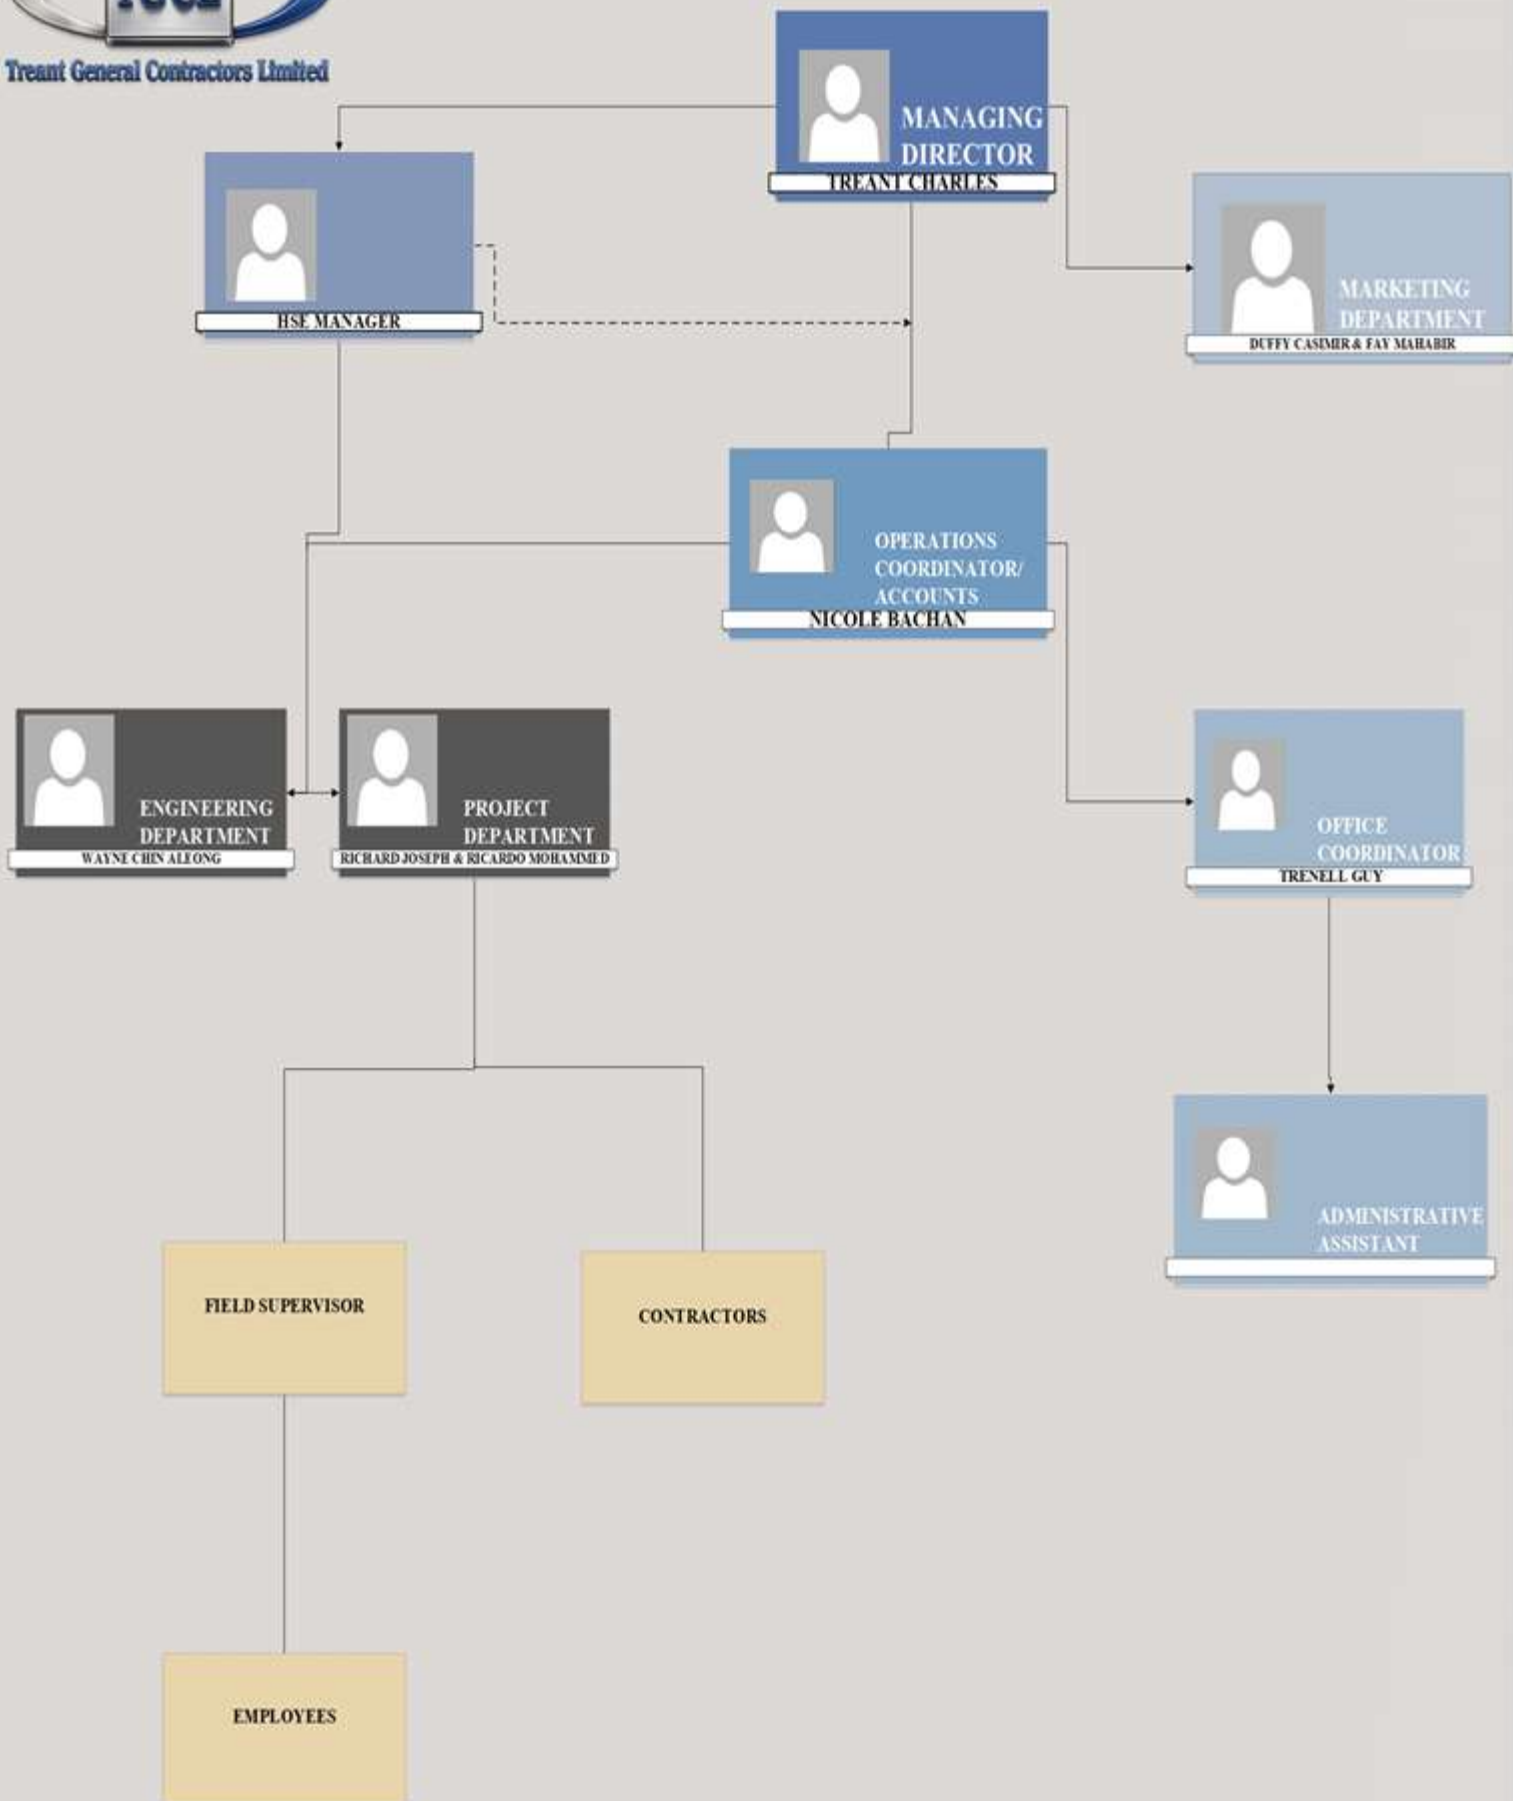

Our success is driven by every employee, from field personnel to administrative staff, who share the company's vision, values, and commitment to excellence.

Since our establishment, TGCL has continued to grow and expand its capabilities while enhancing the quality and range of services we provide. We remain focused on building strong client relationships by delivering reliable, cost-effective solutions that meet our clients' needs.

As we continue to grow, we are committed to attracting and developing passionate, motivated professionals who work closely with our clients, adapt to industry changes, and consistently deliver value. Our diverse and experienced team enables us to provide exceptional service, quality workmanship, and innovative solutions to both existing and prospective clients.

ORGANIZATIONAL CHART

Our HSE Assurance

Health, Safety, and Environment (HSE) is a fundamental pillar of Treant General Contractors Ltd (TGCL), ensuring the safety, health, and well-being of our employees, clients, contractors, and all stakeholders involved in our operations. We are committed to fostering a strong safety culture by equipping our personnel with the knowledge and awareness needed to identify, assess, and effectively manage the risks and hazards associated with every project.

At TGCL, our commitment to quality extends beyond the services we deliver—it is reflected in our unwavering adherence to HSE standards and best practices. We believe that excellence in service is achieved through a proactive approach to health, safety, environmental stewardship, and regulatory compliance.

As part of our continuous improvement journey, TGCL pursued and successfully achieved the STOW Certification through the guidance and support of the Energy Chamber, certified assessors, and internal verifiers. This accomplishment demonstrates our dedication to maintaining internationally recognized HSE standards and reinforces our commitment to delivering safe, reliable, and high-quality services to our clients.

ENVIRONMENTAL POLICY

Treant General Contractors Ltd (TGCL) recognizes its responsibility to protect the environment and to conduct all operations in a manner that supports the sustainable use and preservation of natural resources. While the environmental impact of our operations is generally low, the company is committed to minimizing any potential environmental risks associated with our activities, including marine, industrial, and diving operations.

TGCL is committed to complying with all applicable environmental legislation, regulations, and industry best practices in the countries and sectors in which we operate.

Corporate Commitments

TGCL is committed to the following principles:

- Ensuring compliance with all applicable environmental laws, regulations, and standards.
- Integrating environmental considerations into our planning, decision-making, and operational processes.
- Preventing pollution and minimizing environmental impacts arising from our operations, including marine and underwater activities.
- Promoting responsible use of resources by reducing waste, encouraging reuse, and supporting recycling initiatives where practical.
- Protecting marine environments during diving, inspection, construction, and maintenance activities.
- Communicating environmental responsibilities and best practices to all employees and subcontractors.
- Providing appropriate environmental awareness and training to employees to ensure responsible work practices.
- Continuously improving environmental performance through monitoring, evaluation, and review of our environmental management practices.

Scope

This policy applies to all TGCL employees, subcontractors, and any other personnel working on behalf of the company. Full participation and cooperation from all personnel is essential to successfully meet the commitments outlined in this policy.

Review

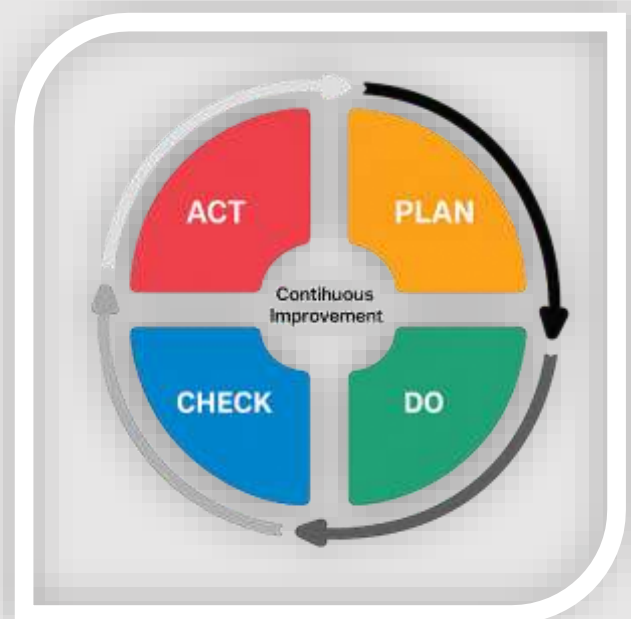

This Environmental Policy will be reviewed annually to ensure its continued relevance and effectiveness in supporting TGCL's environmental responsibilities and operational activities.

HSE Assurance Policy

Excellence in HSE performance is essential to ensure business sustainability and the trust of our stakeholders. To this end TGCL will:

- Always prioritize employee and contractor safety in all our activities, including providing a safe and healthy workplace
- Meet or exceed regulations, legal requirements and international agreements.
- Ensure that our employees and contractors have the necessary skills and valid OSHA Training to undertake their work safely and without harm to their health or the environment.
- Develop a culture in which our employees and contractors take personal responsibility for how they deliver HSE and feel empowered to stop unsafe work.
- Integrate HSE into our business processes, and proactively address risks in our operations.
- Learn from events and Aim for Zero HSE incidents.
- Adopt a sustainable approach to managing our environmental impact and to minimizing our use of natural resources.
- Be a responsible corporate member of society committed to continuous improvement in our HSE standards and performance.
- Openly communicate our HSE performance and enter into dialogue with all interested parties engage with all stakeholders to be a supportive member of the communities in which we operate.

This policy has been adopted by the TGCL's Leadership Team and applies to all employees and all activities. Compliance with the policy is mandatory.

Our Quality Commitment

At **Treant General Contractors Ltd (TGCL)**, we are committed to delivering safe, reliable, and high-quality services that consistently meet or exceed our customers' requirements and expectations. We work collaboratively with our clients to successfully execute projects within the agreed scope, budget, and schedule while maintaining the highest standards of professionalism and operational excellence.

Our commitment to quality is achieved through the effective implementation, maintenance, and continual improvement of our Quality Management System (QMS), which is aligned with the requirements of **ISO 9001:2015**. We strive to enhance customer satisfaction by ensuring compliance with applicable statutory, regulatory, and contractual requirements, promoting a culture of continual improvement, and empowering our employees to take ownership of quality in every aspect of our operations.

Through strong leadership, competent personnel, and efficient processes, TGCL is dedicated to delivering value-driven solutions, fostering long-term client relationships, and continually improving our organizational performance.
